RESEARCH INTERNSHIP-2025

(For Pre-Final Year Students)

ABOUT THE RESEARCH INTERNSHIP

The Research Internship Program offers B. Tech students a unique opportunity to delve into the exciting world of cutting-edge research. Under the guidance of experienced mentors, interns will work on challenging projects at the intersection of technology and innovation. From designing next-generation solutions to tackling real-world engineering problems, participants will gain invaluable hands-on experience that complements their academic learning. This program not only provides a platform to apply theoretical knowledge in practical settings but also fosters critical thinking, problem-solving skills, and collaboration within a supportive research community. Research internships deliver a platform for interns to network with professionals in their field, including researchers, academics, and industry experts. Building these connections can be beneficial for future career opportunities.

Key Highlights: -

- Gain invaluable **research** experience under the **guidance of experienced professionals**.
- Developing **Research paper writing** Skills.
- Work on **real-world projects** that push the boundaries of technology.
- Gain valuable skills in **experimental techniques, data analysis, and research methodologies**.
- **Networking** opportunities **with Researchers** in your field.
- **Certificate** of completion to showcase your dedication.

Guidelines and Instructions: -

1. Students from pre-final year can apply for this Internship program.

2. This will be considered for Summer Internship Evaluation (After III year of B. Tech) as well.

3. This research internship is for students of MITS Gwalior and students from other Institutions as well.

4. Please check research internship modules in detail mentioned below along with Faculty profiles. **STUDENTS CAN REGISTER ONLY ONCE. SO, CHECK MODULE DETAILS CAREFULLY BEFORE YOU START.**

5. After registration process, faculty members can choose 02 to 04 students further.

6. Faculty can choose students for Research Internship by checking their CVs/profiles or after discussion.

7. Final selection of students under faculty members will be communicated to students through registered emails.

8. After the selection of students, students are required to pay the fees online for the Research Internship. Fees is Rs 500/- for the Students of MITS and Rs 1000/- for others.

9. Fees will be collected online and details will be sent to students at their email after finalizing the names of students under research internship.

10. Minimum One research paper should be Applied, Accepted/published during Research Internship.

11. **Research internship will be conducted in offline mode for minimum 01 month in starting and whenever needed faculty can do appropriate arrangements of blended mode depending on the task assigned to students so they can do work from home as well.**

    *Registration fees for Research Internship is Rs 500/- for the Students of MITS, Gwalior & Rs.1000/- for others.
