Moodle is a learning platform designed to provide educators, administrators and learners with a single robust, secure and integrated system to create personalized learning environments, its based on CMS (Content Management System).

Moodle is a free and open-source software learning management system written in PHP and distributed under the GNU General Public License. Developed on pedagogical principles, Moodle is used for blended learning, distance education, flipped classroom and other e-learning projects in schools, universities, workplaces and other sectors.

With customizable management features, it is used to create private websites with online courses for educators and trainers to achieve learning goals. Moodle (acronym for modular object-oriented dynamic learning environment) allows for extending and tailoring learning environments using community sourced

INSTRUCTIONS

This Exercise could not be simpler:

- It is mandatory to respond each statements.
- It will only take about ten minutes
- There are no right or wrong answers
- It will help you to gain a better understanding of yourself

you will find a list of 54 different statements, You are merely required to agree or disagree with the statements appearing on the screen. For example, one statement might say:

I prefer swimming to running
Or
I often take on too many tasks

I. If you agree with the statement select True, OR.
II. If you disagree with the statement select False.

If, for any reason, you neither fully agree nor fully disagree with a particular statement, please try to decide and choose the most relevant option .

Please be honest while responding to different statements, for the accuracy of result.

Improvement in Digital Teaching - Learning Practices through MWI

Improvement in Digital Teaching - Learning Practices through MWI

The Objective of the Practice: MOODLE Working Index (MWI) was computed to motivate the faculty members for using MOODLE.

Ten basic activities were identified for computing the MWI as follows

1. Starting the Course page by Faculty (Course code & name)
2. Adding students & marking attendance
3. Availability of the Course Outcomes (COs) on faculty page
4. Availability of the Syllabus
5. Availability of the Lecture Plan
6. Question Bank
7. Course files (PPT, Lecture Notes, Study material, Reference books, Unit wise Quiz and Assignment) Unit -1, Unit- 2, ... Unit -N
8. Conduction of Quiz
9. Giving & checking Assignments
10. Taking Feedback

For MWI computation:

- Faculty members completing 10 to 6 activities are grouped under "Excellent"
- Faculty members completing 5 to 1 activities are grouped under "Good"
- Faculty members who are not working on MOODLE are grouped under "Poor"
