

Ref. No. Civil50

Date: 03.09.2025

DEPARTMENT OF CIVIL ENGINEERING

NOTICE

Subject: Workshop cum Training Programme on Total Station

Department is conducting a workshop cum training programme on **Total Station** in association with Paliya Consulting Services, Gwalior. In view of this, all **faculty members and staff** of the department are hereby informed that they have to attend this programme as a part of professional development initiative. The programme will be conducted in **two batches** as per the following schedule:

- **Batch 1:** 6th – 7th September 2025
- **Batch 2:** 13th – 14th September 2025

Venue: Seminar Hall No – 1 & Field

Time: 10:30 AM to 5:30 PM

Attendance is **mandatory** for all faculty and staff as per the assigned batch. The detailed batch-wise list and schedule of the programme is attached with this for kind reference.

Your cooperation and active participation are highly appreciated.

Dr. Sanjay Tiwari
Professor & Head

Enclosed: Batch wise list of faculty & Staff & Day wise Detailed Schedule

2. All Faculty & Staff
3. HoD Architecture

**Batch Wise List of Faculty & Staff for Attending Workshop cum Training Program on
Total Station**

- **Batch – A (6th – 7th September 2025)**
 1. Dr. Sanjay Tiwari
 2. Dr. S. K. Jain
 3. Dr. M. K. Trivedi
 4. Prof. A. K. Saxena
 5. Prof. G. Bhadoriya
 6. Prof. Aditya Agarwal
 7. Dr. Hemant Shrivastava
 8. Dr. Abhilash Shukla
 9. Dr. Anjali Patil
 10. Ar. Pranshi Jain
 11. Ar. Ankit Kumar
 12. Ar. Richa Mishra
 13. Sh. M. D. Gaur
 14. Sh. Rajendra Pawse
- **Batch – B (13th – 14th September 2025)**
 1. Dr. Prachi Singh
 2. Dr. Reema Sharma
 3. Dr. Mohit Kumar
 4. Dr. Raghvendra Sahu
 5. Dr. Rohit Ralli
 6. Dr. Mali Shivashankar
 7. Ar. Akanksha Soni
 8. Ar. Shivani Singh Ghuraiya
 9. Sh. Praveen Gupta
 10. Ms. Renu Gupta

Additional Selected Students of B.Tech IIIrd Sem Civil Engineering as per names nominated by Class Coordinators will attend the workshop in Batch - B

Dr. Sanjay Tiwari
Professor & Head

Training program of Total Station

Session 1 (6 September - 7 September, 2025)

S.No.	Description	Date	Timing
1	Introduction and Overview	06-09-2025	11 AM to 1 PM
	- *General Introduction* : Overview of the company and the importance of Total Station in surveying and mapping.		
	- *Use of Total Station* : Explanation of the uses of Total Station in various fields such as construction, mapping, and surveying.		
	- *Function of Total Station* : Detailed explanation of the functions of Total Station, including angle and distance measurement, data collection, and calculation of coordinates.		
	- *Processes* : Overview of the processes involved in using Total Station, including setup, data collection, and data processing		
2	Field Data Collection and Total Station Setup	06-09-2025	2 PM to 05:30 PM
	- *Data Collection* : Hands-on training on collecting data using Total Station, including setting up the instrument, measuring angles and distances, and recording data.		
	- *Total Station Setup* : Step-by-step guide on setting up the Total Station, including leveling, orienting, and configuring the instrument		
3	Data Extraction and Drawing Creation		
	- *Data Extraction* : Explanation of how to extract data from Total Station, including downloading data, processing, and formatting.	07-09-2025	11 AM to 1 PM
	- *Drawing Creation* : Hands-on training on creating drawings using the extracted data, including creating points, lines, and polygons		
4	Drawing Printing and Program Conclusion	07-09-2025	2 PM to 04:30 PM
	- *Drawing Printing* : Explanation of how to print drawings, including setting up the printer, selecting paper size, and adjusting print settings.		
	- *Program Conclusion* : Conclusion of the training program, including review of key takeaways, Q&A session, and feedback collection.		

Training program of Total Station

Session 2 (13 September - 14 September, 2025)

Workshop Report

Department of Civil Engineering
In Association with Paliya Consultancy Services

Title of the Workshop

Training Workshop on Total Station and Demonstration of Differential Global Positioning System (DGPS)

Dates

- Batch I: 6–7 September 2025
- Batch II: 13–14 September 2025

Venue

Department of Civil Engineering

Introduction

The Department of Civil Engineering organized a four-day hands-on workshop on Total Station Surveying and DGPS Applications in collaboration with Paliya Consultancy Services. The program was specially designed to benefit both faculty members and students of Civil Engineering and Architecture by enhancing their practical knowledge of modern surveying instruments and techniques.

Surveying and geospatial data collection play a vital role in civil engineering projects, construction management, and urban planning. This workshop was conducted to bridge the gap between theoretical knowledge and field application by providing participants with live demonstrations and hands-on practice.

Objectives

The key objectives of the workshop were:

1. To introduce participants to the principles, working, and applications of Total Station in surveying.
2. To demonstrate the use of DGPS (Differential Global Positioning System) for high-precision location data.

Foxandep
[Signature]
31/11/25

Leena Sharma
[Signature]

4. To strengthen the application of surveying techniques in civil engineering projects, infrastructure development, and architectural planning.
5. To encourage industry-academia collaboration through active engagement with Paliya Consultancy Services.

Workshop Schedule

Batch I: 6–7 September 2025

- **Day 1:**
 - Inaugural Session and Workshop Orientation
 - Introduction to Total Station: Components, Setup, and Principles
 - Demonstration on Station Establishment, Angle and Distance Measurement
 - Hands-on practice by students and faculty
- **Day 2:**
 - Applications of Total Station in Topographical Survey and Construction Layouts
 - Data transfer and processing techniques
 - Question and Answer session
 - Feedback and Batch I Valedictory Session

Batch II: 13–14 September 2025

- **Day 1:**
 - Recap of Total Station techniques for second batch participants
 - Introduction to DGPS: Principles, Accuracy, and Applications
 - Live demonstration of DGPS field data collection
- **Day 2:**
 - Integration of DGPS data with GIS and engineering projects
 - Comparative study of Total Station and DGPS applications
 - Interactive session with experts from Paliya Consultancy Services
 - Closing session and Certificate Distribution

Participation

- **Faculty Members:** Faculty from Civil Engineering and Architecture actively participated, gaining exposure to modern surveying methods.
- **Students:** UG and PG students from both departments were provided hands-on opportunities to operate the instruments.
- **Industry Experts:** Resource persons from Paliya Consultancy Services facilitated the sessions, delivering professional insights and sharing case studies.

Reema Sharma
Shikha

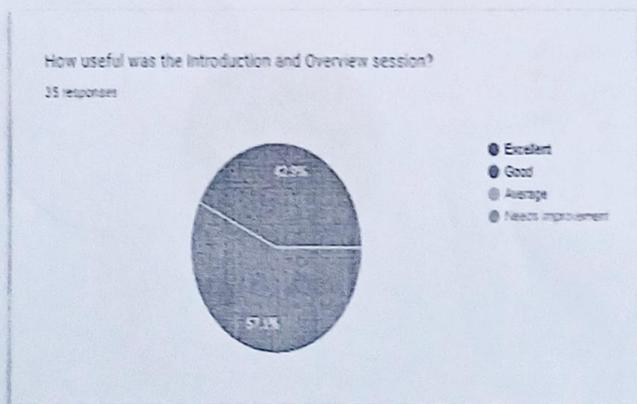

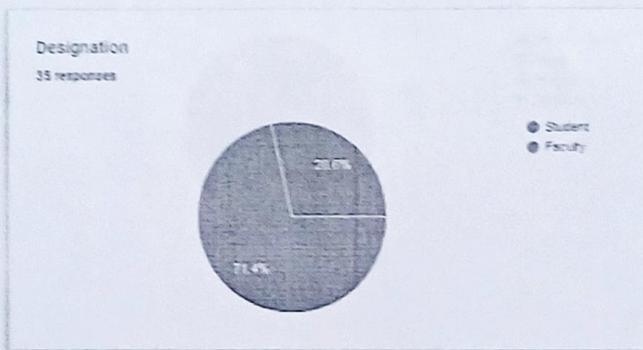

Outcomes of the Workshop

1. Participants gained practical expertise in handling Total Station and DGPS.
2. Enhanced knowledge on data acquisition, accuracy, and applications in civil and architectural projects.
3. Faculty members are now better equipped to integrate modern surveying instruments into teaching and research.
4. Students developed confidence in using industry-standard tools, improving their employability and readiness for professional practice.
5. The workshop strengthened collaboration between academia and industry, opening avenues for future training and consultancy activities.

Feedback

The feedback received from both faculty and students highlighted (total responses - 35):

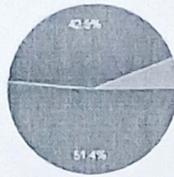

- High relevance of the training in relation to academic curriculum and industry requirements.
- Excellent balance between theory and practice.
- Requests for advanced workshops on GIS integration, drone surveying, and remote sensing in the future.

Reema Sharma
Shikha

The session on Use of Total Station was:

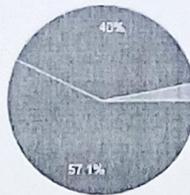

35 responses

- Very Clear and informative
- Clear
- Average
- Somewhat Clear
- Not Clear

The Hands-on Demonstration with Total Station was:

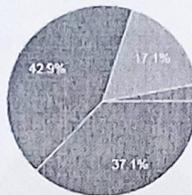

35 responses

- Very Effective
- Effective
- Average
- Not effective

The DGPS Demonstration helped in understanding the applications:

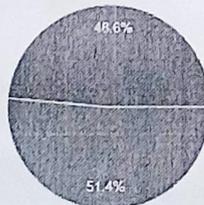

35 responses

- Strongly Agree
- Agree
- Neutral
- Disagree

The knowledge of the trainers/resource persons was

35 responses

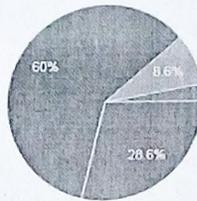

- Excellent
- Good
- Average
- Poor

Leana Shome
Shilpa

The delivery style and communication of the trainers was:

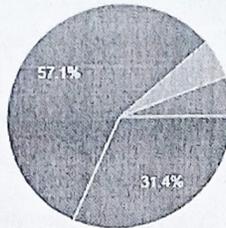

35 responses

- Very Effective
- Effective
- Average
- Needs Improvement

The delivery style and communication of the trainers was:

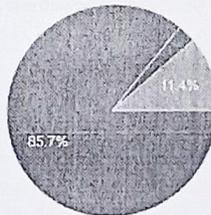

35 responses

- Very Effective
- Effective
- Average
- Needs Improvement

The duration and timing of sessions were:

35 responses

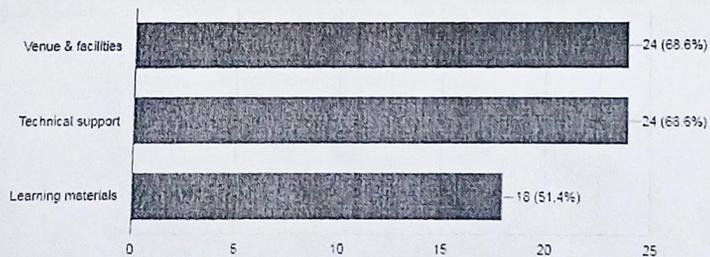

- Appropriate
- Too Long
- Too Short

The workshop was well organized in terms of.

35 responses

Abir

What is your overall satisfaction level with the workshop

35 responses

- Very Satisfied
- Satisfied
- Neutral
- Dissatisfied

Key learning(s) you are taking away

11 responses

"What I truly learned was how to set targets accurately with the total station"

I learn how to use total station

I will now be able to record data of different station points using total station regarding slope distance, vertical angle and horizontal angle, and further analyse them using AutoCAD to identify layout and area

Yes

Hands on application of a very important survey tool.

I have learned a lot about total station. It will be very effective for me in the future.

No

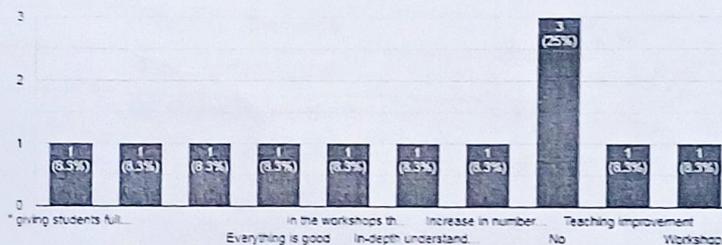

GOOD EXPERIENCE

The setting up of Instruments and basic problems of surveying in practice.

Suggestions for improvement / future workshops:

Conclusion

The workshop on Total Station and DGPS Demonstration, organized by the Department of Civil Engineering in association with Paliya Consultancy Services, proved to be highly successful in achieving its objectives. The sessions were informative, interactive, and practice-oriented, ensuring that the participants could relate their classroom learning to field applications.

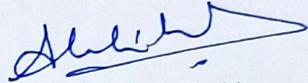

Ramesh Chandra
Sharma

The department expresses its gratitude to Paliya Consultancy Services for their technical support, to the faculty members for their active involvement, and to the students for their enthusiastic participation.

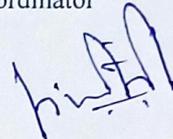

The success of this workshop has motivated the department to plan similar skill-oriented training programs in the near future to keep pace with advancements in surveying and geospatial technologies.
