GENERAL PRACTICES TO BE FOLLOWED IN LABORATORY:

1. Enter in Lab with enclosed Shoes/Footwear (no sandals) and do not wear loose dress
2. Make sure that you know the location of First Aid Kit and Fire Extinguishers before you start your experiments.
3. Get First Aid immediately for any injury, no matter how small it is and do not wear loose dress.
4. Do not play with valves, screws and nuts.

DO's

- Be on time, at the start of the lab period, there will be a short introduction to the experiment you will perform that day.
- Thoroughly CLEAN your laboratory work space at the end of the laboratory session.
- Maintain silence and clean environment in the lab.

DON't

- Do not try to run and operate any machine without permission and knowledge of the Lab Personnel
- In case of any mishap - Do not Panic, be calm but quick to report at once to the Lab Personnel.
- Do not eat or drink in the Lab at any time.
