Suggestion for further improvement (if any)

- Excellent
- Not at all satisfied. The facilities given are too less as compared to the fees .labs are are old they have windows 7 installed when there is 11 is in market . They are not capable to run basic python program that are in our syllabus. Faculty only teaches to cover syllabus no one talks about innovation or any idea for startup. They just want 75 percentage of attendance. Mentors allotted for minor project didnt even asked for any guidance they can provide. Everybody is busy in their own world. No one even thinks about making student ready for present industry.
- No thank you ..i don't want any suggestion...
- There is no proper communication between parents and College faculty
- Strengthening of library facility, its duration and many more facility so that student remain focussed
- Parents Official group can be formed with the department coordinators so that any information that is necessary will in the notice of parents too.
- Please make the fees low .
- Nothing

Suggestion for further improvement (if any)

- Excellent
- Not at all satisfied. The facilities given are too less as compared to the fees .labs are are old they have windows 7 installed when there is 11 is in market . They are not capable to run basic python program that are in our syllabus. Faculty only teaches to cover syllabus no one talks about innovation or any idea for startup. They just want 75 percentage of attendance. Mentors allotted for minor project didnt even asked for any guidance they can provide. Everybody is busy in their own world. No one even thinks about making student ready for present industry.
- No thank you ..i don't want any suggestion...
- There is no proper communication between parents and College faculty
- Strengthening of library facility, its duration and many more facility so that student remain focussed
- Parents Official group can be formed with the department coordinators so that any information that is necessary will in the notice of parents too.
- Please make the fees low .
- Nothing
