

FACULTY ACHIEVEMENT

Dr. Anjali S. Patil, Head of the Department of Architecture, delivered an insightful lecture at the National Workshop on Coal Mine Closure and Repurposing held on 23rd and 24th February. The workshop, titled "Moving Beyond Extraction," focused on sustainable strategies and innovative approaches for transforming post-mining landscapes. Dr. Patil's session highlighted the role of architecture and planning in revitalizing abandoned mining sites, emphasizing ecological restoration, adaptive reuse, and community-centric development. Her contribution enriched the discourse by bridging environmental concerns with design solutions for a more sustainable future.

Cube Film School: Camera & Photoshop Workshop
"OUR department mastering cameras to showcase architectural brilliance."

The Architecture Department elevated its visualization skills through Cube Film School's intensive workshop on camera techniques and Photoshop editing. The students mastered camera settings, composition rules like leading lines and rule of thirds, then applied these skills to photograph architectural building elevations for portfolio and personal skill development.

Educational:

Educational trip to Hyderabad

“OUR department experiencing different spaces to enhance their work.”

The Department of Architecture organized an educational trip for 2nd and 3rd year students to Hyderabad and Kanha Shanti Vanam from 4th to 11th february . The visit offered valuable exposure to heritage architecture, urban spaces, and sustainable design practices. Students gained insights through observation, exploration, and on-site learning, making the trip a meaningful and enriching academic experience.

USG: MLB COLLEGE

On January 17th, our Architecture Department hosted Urban Sketching Gwalior at MLB College campus. Students created individual perspectives of the marvelous architecture styles rich buildings using diverse mediums such as pencil, pen, markers, charcoal, and watercolors. It was a fun way to share each other's sketching approaches and perspectives while naturally improving our own skills through friendly feedback and technique exchange.

USG: ITALIAN GARDEN

Continuing our sketching journey on January 25th at Gwalior's Italian Garden, Architecture Department members documented the symmetrical landscaping and pavilion architecture. Each student interpreted the fountains and pathways through their choice of pencil, pen, markers, or mixed media, creating a beautiful variety of perspectives. The session became a lively showcase of shared sketching skills, with everyone improving through observing and discussing different approaches.

Annual Fest:

Aarunya 2026:
"Architecture department
owned Aarunya—graffiti
wall AND pottery stall
champions!"

Aarunya 2026 College Festival showcased our Architecture Department's creativity across two major highlights. Students transformed a simple concrete wall into a stunning mural art featuring colourfull strokes and cool characters overall maintaining an arcade theme. Simultaneously, Creative Archi Club's pottery stall drew 120+ participants including both students and faculty, all crafted playful clay sculptures on potter's wheels. Our dual excellence earned the prestigious recognition in entire campus.

U.S.G. Sketches:

Students of the Department of Architecture actively participated in the Urban Sketching event held in Gwalior. Through on-site sketches, they captured the city's rich architectural heritage, vibrant streetscapes, and everyday life. The exercise enhanced their observation skills, sense of proportion, and understanding of urban character, making it a creative and engaging learning experience.
