DEPARTMENT OF ARCHITECTURE & PLANNING

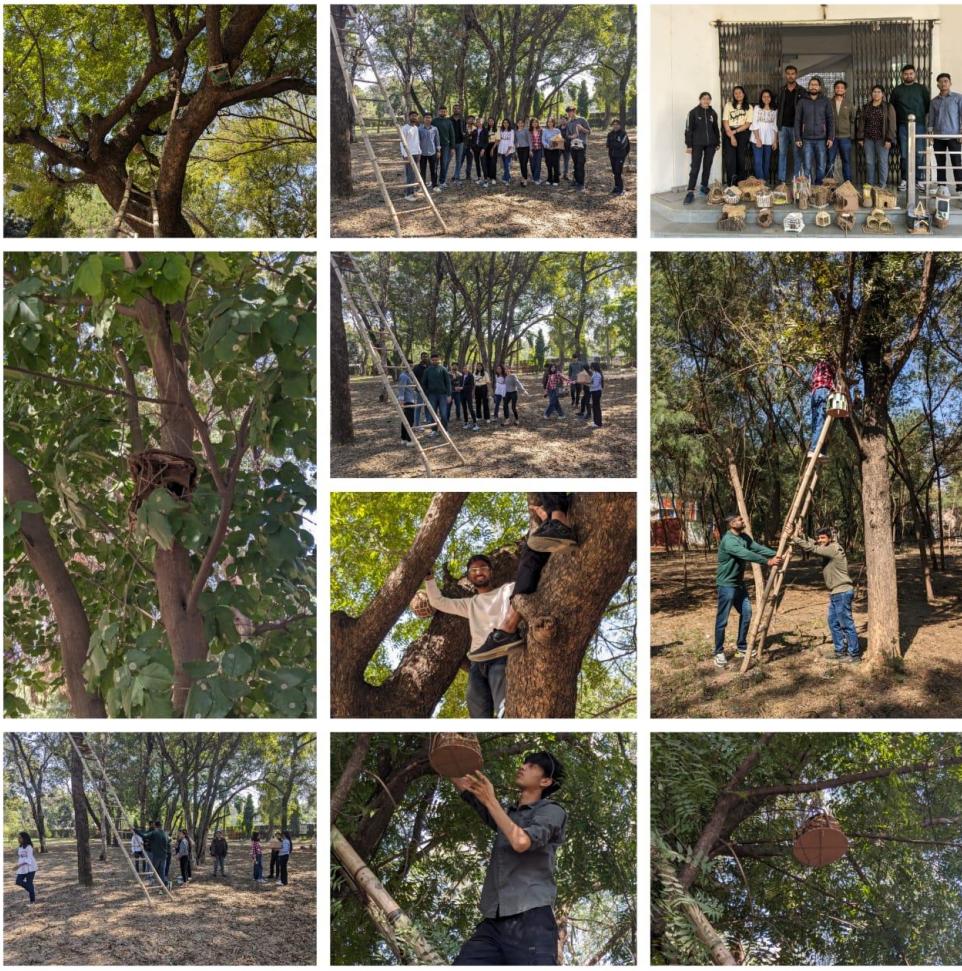

Report on Birdhouse Making and Installation Event

Type of activity:	Birdhouse Making and Installation Workshop
Title of the activity:	Birdhouse Making and Installation Event
Date and duration of Activity:	10-02-2024
Number of Participants:	20 [18 Students, 2 Faculty]
Coordinator:	Ar. Ankit Kumar & Ar. Versha Sinha, Assistant Professor, Department of Architecture and Planning
Objectives of the Event:	<ul style="list-style-type: none">• To promote environmental conservation and wildlife habitat creation.• To provide students with hands-on experience in carpentry and craftsmanship.• To foster a sense of responsibility towards community service and social welfare.
Description of the program, Activities and Highlights:	<p>The Bird House Making (Aviary Crafting) and Installation Event stood as a significant departmental endeavor within the framework of the National Social Service initiative at MITS College. In our capacity as the Event Coordinators, we are delighted to present this report encapsulating the accomplished implementation of the workshop.</p> <p>Date & Venue: The event took place on 10.02.2024 at the spacious campus of MITS College.</p> <p>Birdhouse Construction: Participants were guided through the process of building birdhouses using sustainable materials. Instructions were provided step-by-step, allowing students to learn basic workshop and architectural model making techniques while constructing functional bird habitats.</p> <p>Hanging Birdhouses: Following the construction phase, participants proceeded to hang the birdhouses in designated areas around the campus. This hands-on activity encouraged teamwork and collaboration as students worked together to find suitable locations and secure the birdhouses.</p> <p>Educational Sessions: In addition to practical activities, educational sessions were conducted to raise awareness about the importance of bird conservation and the role of birdhouses in providing shelter and nesting sites for local bird species.</p>
Success Metrics:	<p>Participation: The workshop saw active participation from students across different departments, reflecting widespread interest in environmental conservation and community service.</p> <p>Impact: By constructing and hanging birdhouses, participants contributed to creating wildlife-friendly habitats and enhancing biodiversity on campus.</p> <p>Collaboration: The workshop facilitated collaboration and cooperation among students, fostering a sense of camaraderie and shared responsibility towards environmental sustainability.</p>
Acknowledgments:	Heartfelt appreciation to the students of MITS College for their unwavering support and active involvement in this departmental endeavor. A special acknowledgment goes to the organizing team and volunteers for their

	<p>unwavering dedication and diligent efforts in ensuring the success of the Birdhouse Making and Hanging Workshop.</p>
Conclusion:	<p>The Birdhouse Making and Hanging Workshop stands as a laudable initiative aimed at fostering environmental conservation and community engagement. Through the construction of birdhouses and the creation of wildlife habitats, participants showcased their dedication to societal responsibility and environmental stewardship. I am optimistic that this event will inspire ongoing endeavors toward sustainable living and the preservation of biodiversity within the college community.</p>
