### Alumni Feedback

S. No.	Comments	Action Taken
1	Revision of syllabus is required	Already discussed and changed in BoS accordingly
2	Need to particularly focus on practical application rather than teaching theories.	All the faculty members have been instructed to discuss the theory with some practical applications in their respective courses.
3	Availability of Books in Library	The Library officer has been informed about the situation and also shared the list of Books.
4	Department should have a regular industrial visits.	Department is exploring opportunity related to conduction of industrial visit.

### Employer Feedback

S. No.	Comments	Action Taken
1	They must focus on the core rather making aware about other subjects	Courses are offered according NEP
2	The courses offered are only relevant upto a certain level there should be a proper commencement of newly technologies introduced in the industries then only we can make graduates ready for an industry. They must taught about the ethics and principles which one should follow while working inside the chemical industries.	New Technology and Industry related course already offered in flexible curriculum.
3	Must include an optional course on chemical/industrial operations which are practiced in different process industries.	Some Such courses are offered on NPTEL platform under DE
4	Need some courses on finance as well. Data science is an emerging field an exposure of that will be beneficial.	Regarding this Provision is there in open category courses.
5	If possible, addition of 2-3 months of internship or practising of students in multiple industries to get contemporary knowledge in industrial operations.	Students get industrial (1 month) visit after 6 <sup>th</sup> sem and during 8 <sup>th</sup> sem most of the students are engaged with industrial internship (4-6months)
