Theory Proficiency Guidelines for students:

Proficiency in Course is a part of end semester assessment and carries maximum marks 10. (Will be separately assessed for each student)

For evaluating this component, the following guidelines are to be followed.

- 1. Two activities are proposed to be conducted under this component, namely: (A) Course end seminar and (B) One-minute paper writing (C) Outcome based on development of product/research/paper publication aligned with the course
- 2. The distribution of marks for the above activities may be 5:3:2 for awarding the marks.

A. Guidelines for Course End Seminar

• Each student is required to prepare presentation not more 5 slides on his/her learning about the course. The slides must reflect the conclusive aspect of the course.

B. Guidelines for one-minute paper writing

• The students are required to write their basic understanding from the course. (What students have learnt from the course/will they be able to apply, if yes, where?)

C. Guidelines for 'development of product/research/paper publication aligned with the course

- Development of Hardware/prototype/software product
- Development of an experiment
- Publication/presentation of a research paper in conference/Journal
- Course specific application towards community and society
