

Department of Architecture & Planning

VISION

The institute mission is to provide innovative professionals to the field who are rooted in our cultural ethos contributing wholesomely to nation building.

MISSION

The Department is the leading voice for excellence in the field of Architecture and Construction in country, demonstrating how design enhances the quality of life, while addressing important issues of society through responsible architecture and to make institute, a distinguished center of research, innovation, learning, capacity building and scholarly inquiry to become a globally competitive institution.

Architecture is the only course with an amalgamation of Technology, Science and Art. The department of Architecture was established in the year 1984 with an intake of 20 students and was later enhanced to 40 students in the year 2004. Department has in place a high quality of resources to impart Architecture education.

VISION

“To create world class quality Engineers and Technocrats capable of providing leadership in all spheres of life and society” The Department aspires to lead in the arena and era of future research in architecture and its allied fields. The contribution towards societal needs and national importance will be highest priority of the department for future. To cater the needs of academia sponsored and non-sponsored extension services are handled with high precision and competence.
