

Department of Electrical Engineering

VISION

To Prepare Professionally Competent Electrical Engineers for Global Industrial requirements and Social needs

MISSION

- **Impart state-of-the-art technical education at UG, PG and Ph.D. levels through good academic support & facilities. (Academic Development).**
- **Keep pace with latest technological developments in the domain. (R&D Activities).**
- **Effective interactions with industries, academia and other stakeholders. (Industrial & Societal needs)**
- **Provide training on soft skills, managerial skills and professional ethics for overall development of students and society in an ethical manner. (Human Potential Development).**

Department of Electrical Engineering is one of the oldest departments established in 1957 at MITS campus. The department is dedicated to the teaching and research activities in the areas of Electrical, Electronics, Instrumentation & Control Engineering. The department educates the students to take up challenging jobs in a wide range of industries and engage themselves in research and development activities for the good of society. The syllabi of the courses are continuously updated and the laboratories modernized to reflect the rapid changes in technology. It also offers high quality research in the (ME and Ph.D.) Programs. Courses offered by the department cater to learning needs from basics to the advanced level. Department offers variety of discipline electives and covers most of the modern technologies. It has state of the art laboratories to provide hands on experiences and support research activities.
