REPORT

Event: Indian Armed Forces Workshop Date: 07.10.2023

Objectives: Holistic Health Club MITS in Collaboration with the Electrical Engineering and Computer Science & Engineering Department successfully organized the Indian Armed Forces Workshop under the guidance of Prof. Vishal Chaudhary and Prof. Mona Pandey Sharma on 07 October 2023. The event featured guest appearances by Lieutenant Colonel Mustafa, Mr. Sudhir Mishra, Lieutenant Commander Vineet Singh, Dr. Sapna Kumari and Prof. Mona Pandey Sharma. The event commenced with Saraswati Vandana, lighting of the lamp by guests and a welcome address by Prof. Vishal Chaudhary.

During the workshop, the speakers discussed the various examinations and institutions related to recruitment in the Army. Dr. Sapna Kumari, the Student Counselor of MITS, enlightened all participants about psychology. Subsequently, Mr. Sudhir Mishra, an ex-OTA EBSB counsellor, addressed the participants. Lieutenant Commander Vineet Singh addressed and congratulated all the participants. Prof. Mona Pandey Sharma used slides to explain OIR tests, psychological tests and GTO tests to all the participants. At the conclusion of the event, mementoes were presented to all the guests.

Salient Features:

Altogether, our speakers taught completely about SSB process in very attentive way.

1. The first level is the screening test, which consists of the Picture Perception and Description Test (PPDT) and Officer Intelligence Rating (OIR). Candidates must create a tale based on a given image and then present it for group discussion.

2. Psychological Testing: This stage includes a number of psychological tests, including the Thematic Apperception Test (TAT), the Word Association Test (WAT), Situation Reaction Test (SRT) and the Self-Description (SD) tests. These examinations measure a candidate's temperament, way of thinking, and responses.

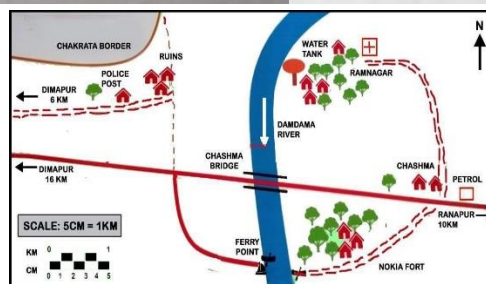

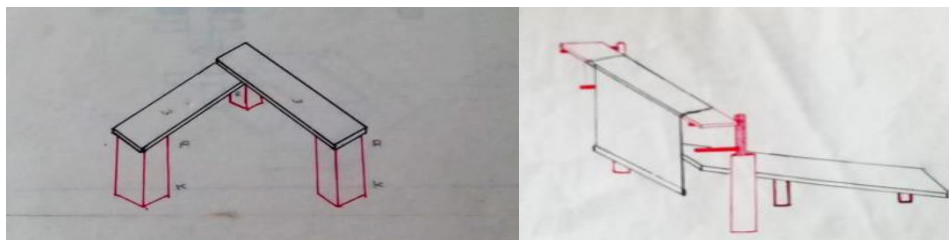

SITUATION REACTION TEST (SRT)

- ▶ Fill up your responses in the sheet provided to you.
- ▶ This is a test of imagination (idea writing test) most commonly known as SRT.
- ▶ In this test a number of situations are presented to you. We would like to know how you would feel, think, and act in these situations.
- ▶ There are no right or wrong answers in respect of these situations.
- ▶ Write quickly the answer that comes to your mind first.
- ▶ **30 seconds** for writing reaction of each situation.

THEMATIC APPERCEPTION TEST (TAT)

- ▶ Picture will be shown for **30 seconds**.
- ▶ You will get **4 minutes** for each story; after which slide (picture) will be changed.
- ▶ The story must be positive one.
- ▶ Mention about its past, future and what led to the situation shown in the picture.

3. Group testing, such as the Lecturette, Group Discussion (GD), Group Planning Exercise (GPE), Progressive Group Task (PGT), Half Group Task (HGT), Full Group Task (FGT) and Command Task.

4. Personal Interview: Candidates face a personal interview with the interviewing officer. They are questioned about their background, interests, and aspirations on the basis of PIQ form filled by candidates.
5. Conference: A final conference is conducted where all assessors discuss and decide on the suitability of the candidate for commission into the Armed Forces.
6. Medical Examination: Candidates undergo a thorough medical examination to ensure they meet the medical standards required for service.
7. Merit List: A merit list is prepared based on the candidate's performance in all stages. Those who make it to the merit list are recommended for training at the respective academies.

It's important to note that SSB interviews are highly competitive, and candidates are evaluated on their Officer Like Qualities (OLQs) such as leadership, initiative, communication skills, and more. Preparation, physical fitness, and a positive attitude are key to success in the SSB interview process.

Other Points:

1. Students were from MITS and other institutes.
2. Total students who have successfully participated were 160.
3. This day also demonstrate the True nationality of each one with full passion.
4. Event was followed with complete 5 SSB process. SSB Interview consists of two stages i.e., Stage-1 and Stage-2. Stage-1 has OIR test and PPDT, Stage-2 has Psychological Tests, GTO Tasks, and Personal Interview.
5. All the students received the good experience for SSB interview for their future.
6. Different beautiful and intelligent minds performed effectively and winners were shortlisted after complete SSB process.

Winner 1: Divyanshi Sikarwar

Winner 2: Sidharth Singh

Winner 3: Anushka

The workshop was well-organized and informative, and it was a great opportunity for students to learn more about the SSB process and how to prepare for it. Mr. Sudeep's motivational and intellectual words were also very helpful, and they inspired students to pursue their dreams.

Overall, the workshop was a great success, and we are grateful to Mr. Sudeep Sir for taking the time to share his knowledge and expertise with us.

Outcomes:

1. Total 35 HHC volunteers worked for this event accordingly with respect to their domains under the guidance of President Aditi Tripathi and vice President Nitin Shroti.
2. Hard copy certificates will be provided for top 3 winners and participants who have membership of HHC.
