### Monitoring Attendance of Students and taking timely actions (Jan-April 2023)

Ref: Mail dated 26th September 2022

Dear HoDs

**Process for monitoring/taking timely actions for students with low attendance, similar to previous semester**

[1] Please send warnings course-wise to students particularly II & III year who have very low attendance. If you have already taken these steps it is well and good.

[2] The names of such students may be shared on whats app groups or in any other manner in which the department feels it will be effective to improve attendance after the mid semester break.

[3] A meeting can also be conducted with such students to know the reasons for their poor attendance. Required support may then be provided accordingly.

[4] A brief compiled report in this regard (about action taken/steps taken and number of students who are at risk) must be sent to the office of the Dean Academics latest by **15th April 2023**. The same will be part of AEI also.

**Item. 13: To report about meeting of Dean Academics with HoDs on 26.04.2023**

— In a routine meeting of HoDs and Dean Academics, some changes in the Des/OCs being offered from MOOCs/traditional mode were taken and recorded in the minutes. The same has now been implemented by the BoS of departments.

Date: 26/04/2023

**Minutes of Meeting of HoDs of Engineering Programmes with Dean Academics**

Meeting of HoDs of Engineering Programmes with Dean Academics to bring quality to routine academic activities was held in the new IQAC office at 4.45 PM on 26<sup>th</sup> April 2023.

The following issues were discussed and resolved:

- The HoDs briefed about smooth conduction of the Practical Examinations with feasible and small batch sizes with as per the time table shared by the departments. No particular issues were faced during the practical examination.
- It was discussed that in the VII semester, (i)one DE and one OC course will be offered in traditional mode, (ii) two DE courses will be offered through MOOCs.  
**Then out of total 8 elective courses, there will be 03 OCs in traditional mode with larger pools and 05 DEs.**  
**The DEs have a higher flexibility and choice as interdisciplinary, employment oriented courses can also be offered as DEs in addition to domain specific courses.**
- **Before the BoS, Feedback on NPTEL courses to be offered MUST be positively taken form students (using format given on MOODLE) as later lots of courses are added due to student requests.**
- **Departments must coordinate with each other for selecting OC course. List of OCs to be displayed in pre-AC meeting.**
- The Dean Academics enquired whether departments are maintaining an **Excel sheet for Continuous Evaluation based on rubrics.**
- In laboratories, hard copy records can be maintained. It was suggested that the students can be asked to attach the pages (strictly as per the format shared from Dean Academics office) in their lab records/reports.
- It was also discussed that the report of minor projects, internship, mini projects etc. must be maintained in signed soft copies on drive. Department can have hard copies also if they want, at least a few good samples can be submitted with spiral binding.
- **In all project reports the signed Plagiarism Check certificate is mandatory.**
- A uniform Format of reports must be finalized at department level and circulated to students. There will be no director signature. Only HoD, Project Coordinator mentor faculty and the student(s).

(A Govt. Aided UGC Autonomous & NAAC Accredited Institute Affiliated to RGPV, Bhopal)

- Question paper quality is at times not up to mark, which is a concern. HoDs were asked to brief all faculty members about the quality and format of question papers in mid-term and other examinations.
- During **Question Paper Analysis** activity below standard questions can be identified and the concerned faculty instructed accordingly.
- HoDs or senior faculty deputed by HoD to monitor the conduction of mid-semester examinations, take rounds of examination halls. **The invigilation will be done by the Department faculty only.**
- **“Activity Based Learning” can be a solution to attendance problem. With this in view, between the first and second mid-semester examination, one week can be designated as ‘Activity Week’ and one week as ‘Quiz week’. The departments can plan the events and prepare their calendars for July session accordingly.**
- **Four lectures (even though the credits are only 03) will be scheduled in the next semester for core and DE courses to fulfil the gaps in learning.**
- The Dean Academics said that the HoDs are responsible for the “Image & Visibility” of their department; “Jo dikhta hai vo bikta hai”. Some suitable faculty must be assigned with the responsibility to increase visibility of the department.
- There have been many changes in schemes which was necessary to maintain flexibility and choice required for NEP implementation. The webpage of the department must always display the most updated version of the schemes, batch-wise.
- Similarly, other details on the website must also be updated frequently. This task needs regular monitoring at the department level by a suitable person who is made accountable for this activity.
- **The departments were asked to maintain records of progression of slow learners as per format circulated for the same.**
- **It was decided that the department will decide dates for the Final Year Internship Examination. The examination must be scheduled in offline mode only. Genuine cases (based on the criterion decided by the department and also discussed during the meeting) can be permitted to appear online.**
